

Alecensa in Saudi Arabia

The SFDA named-patient coordination pathway — indicative 2026

ONCOLOGY · ALK-REARRANGED NSCLC

The clinical situation

Alecensa (alectinib) is a second-generation oral ALK tyrosine kinase inhibitor with strong CNS penetration. Manufactured by Genentech / Roche. Eligibility requires molecular confirmation of an ALK rearrangement; dosing is typically 600 mg orally twice daily with food, with monitoring for liver enzymes, bradycardia, myalgia, and photosensitivity.

The pathway, 5 steps

- 1 Consultation & clinical rationale.** Your treating oncologist confirms ALK status and documents a written clinical rationale and line history.
- 2 Administering facility confirmed.** A Saudi tertiary oncology centre with an importing pharmacy (Riyadh, Jeddah, or Eastern Province) is identified.
- 3 SFDA named-patient application.** Clinical rationale, patient reference, product details, and chain-of-custody plan are filed.
- 4 US-side sourcing & logistics.** Reserve Meds coordinates product through our US-licensed DSCSA-compliant specialty wholesale partner.
- 5 Arrival & administration.** The pharmacy releases product against prescription; concierge coordinates monthly re-supply ahead of cycle end.

Indicative economics

Reference US cash-pay range: USD 17,000–20,000 per 30-day supply. Logistics, SFDA documentation, and concierge coordination are incremental. Full transparent quote at intake.

Indicative first-dose timing

7–14 days from a complete SFDA application to first delivery, once cohort intake opens. Indicative — not guaranteed.

Reserve Meds's role

Sourcing. US-licensed specialty wholesale partner, DSCSA chain-of-custody. **Documentation.** Regulatory package for your physician and SFDA review. **Logistics.** Temperature- and chain-of-custody-compliant shipment. **Concierge case lead.** Named point of contact for family and physician through the full process. **We are a coordinator** — not the prescriber, not the dispensing pharmacy. All clinical decisions remain with your treating oncologist.

COMPOSITE EXAMPLE · PRE-LAUNCH WAITLIST
