

# Braftovi in the UAE

*The MOHAP named-patient coordination pathway — indicative 2026*

ONCOLOGY · BRAF-MUTANT CANCERS

## The clinical situation

Braftovi (encorafenib) is an FDA-approved oral selective BRAF kinase inhibitor dosed 450 mg once daily in BRAF V600-mutant melanoma (with binimetinib) and 300 mg once daily in BRAF V600E-mutant metastatic colorectal cancer (with cetuximab). Manufactured by Pfizer. Requires documented BRAF V600 mutation testing and coordinated combination-therapy initiation.

### The pathway, 5 steps

- 1 Consultation & clinical rationale.** Your treating oncologist confirms BRAF V600 mutation status and documents a written clinical rationale and prior line history.
- 2 Treatment facility confirmed.** A UAE oncology centre (Abu Dhabi, Dubai, or Sharjah tertiary facility) accepts the case and sets the combination-therapy plan.
- 3 MOHAP named-patient application.** Clinical rationale, patient reference, product details, and chain-of-custody plan are filed with the Ministry of Health and Prevention.
- 4 US-side sourcing & logistics.** Reserve Meds coordinates product through our US-licensed DSCSA-compliant specialty wholesale partner, booked to your initiation date.
- 5 Arrival & administration.** The facility receives the product and initiates under your oncologist's care; ongoing cycles dispensed per the combination protocol.

### Indicative economics

**Reference US cash-pay range:** USD 13,000–15,000 per 30-day supply. Combination partner (binimetinib or cetuximab), MOHAP documentation, logistics, and concierge coordination are incremental. Full transparent quote at intake.

### Indicative first-dose timing

**7–14 days** from a complete MOHAP application to first-dose delivery, once cohort intake opens. Indicative — not guaranteed.

## Reserve Meds's role

**Sourcing.** US-licensed specialty wholesale partner, DSCSA chain-of-custody. **Documentation.** Regulatory package for your physician and MOHAP review. **Logistics.** Temperature-monitored shipment coordination. **Concierge case lead.** Named point of contact for family and physician through the full process. **We are a coordinator** — not the prescriber, not the dispensing pharmacy. All clinical decisions remain with your treating oncologist.
