

# Bylvay in the UAE

*The MoHAP named-patient coordination pathway — indicative 2026*

RARE DISEASE · CHOLESTATIC PRURITUS (PFIC / ALAGILLE)

## The clinical situation

Bylvay (odevixibat) is an oral selective ileal bile acid transporter (IBAT) inhibitor FDA-approved for pruritus in patients with progressive familial intrahepatic cholestasis (PFIC) three months and older, and for cholestatic pruritus in Alagille syndrome (ALGS) twelve months and older. Manufactured by Ipsen. Dosing is weight-based once-daily capsules or oral granules. Pre-treatment workup covers genetic confirmation, baseline LFTs, fat-soluble vitamin levels, and pruritus scoring per FDA labelling.

### The pathway, 5 steps

- 1 Consultation & clinical rationale.** Your paediatric hepatologist documents PFIC or ALGS diagnosis, genetic confirmation, pruritus severity, and Bylvay rationale.
- 2 Baseline workup.** LFTs, fat-soluble vitamin levels, serum bile acids, pruritus scale per FDA labelling.
- 3 MoHAP named-patient application.** Physician or hospital pharmacy files clinical rationale, patient reference, weight-based dosing plan, and chain-of-custody commitment.
- 4 US-side sourcing & logistics.** Reserve Meds coordinates product through our US-licensed DSCSA-compliant specialty wholesale partner with controlled-ambient shipment.
- 5 Arrival & first dose.** Dispensing pharmacy releases the capsule or granule pack; weight-based dosing schedule established with the treating physician.

### Indicative economics

**Reference US cash-pay range:** USD 380,000–450,000 per year of Bylvay (drug-only reference; Reserve Meds provides a transparent delivered quote at intake).

### Indicative first-dose timing

**7–14 days** from a complete MoHAP application to first dispensation, once cohort intake opens. Indicative — not guaranteed.

## Reserve Meds's role

**Sourcing.** US-licensed specialty wholesale partner, DSCSA chain-of-custody from Ipsen authorised distribution.

**Documentation.** Physician kit tailored to MoHAP review, with PFIC/ALGS genetic confirmation and fat-soluble vitamin monitoring annex. **Logistics.** Controlled-ambient internationally tracked shipment. **Concierge case lead.** Named point of contact for family and physician through monthly refills. **We are a coordinator** — not the prescriber, not the dispensing pharmacy. All clinical decisions remain with your treating physician.

**COMPOSITE EXAMPLE · PRE-LAUNCH WAITLIST**

**Join the Bylvay × UAE first-cohort waitlist.** *Our concierge reaches out as we open intake.*
