

Cosentyx in Saudi Arabia

The SFDA named-patient coordination pathway — indicative 2026

IMMUNOLOGY · IL-17A

The clinical situation

Cosentyx (secukinumab) is an FDA-approved fully human monoclonal antibody to IL-17A indicated for plaque psoriasis, psoriatic arthritis, ankylosing spondylitis, non-radiographic axial spondyloarthritis, hidradenitis suppurativa, and enthesitis-related arthritis / JPsA. Manufactured by Novartis. Standard dosing is 150-300 mg SC weekly induction then every 4 weeks maintenance (indication-specific); refrigerated storage 2-8°C, auto-injector or pre-filled syringe.

The pathway, 5 steps

- 1 Consultation & clinical rationale.** Your treating dermatologist or rheumatologist documents diagnosis severity, TB/HBV/HCV screening, and prior biologic history.
- 2 Treating centre confirmed.** A Saudi tertiary dermatology or rheumatology centre in Riyadh, Jeddah, or Dhahran accepts the case.
- 3 SFDA named-patient application.** Clinical rationale, patient reference, product details, and cold-chain plan are filed; SFDA NPP electronic submission.
- 4 US-side sourcing & logistics.** Reserve Meds coordinates product through our US-licensed DSCSA-compliant specialty wholesale partner; temperature-monitored 2-8°C shipment.
- 5 Arrival & administration.** Patient self-administers SC at home after nurse training; response reassessed at 12-16 weeks.

Indicative economics

Reference US cash-pay range: USD 5,500–6,500 per monthly dose. SFDA documentation, cold-chain logistics, and concierge coordination are incremental. Full transparent quote at intake.

Indicative first-dose timing

7–14 days from a complete SFDA application to first-dose delivery, once cohort intake opens. Indicative — not guaranteed.

Reserve Meds's role

Sourcing. US-licensed specialty wholesale partner, DSCSA chain-of-custody. **Documentation.** Regulatory package for your physician and SFDA review. **Logistics.** Temperature-monitored cold-chain shipment coordination. **Concierge case lead.** Named point of contact for family and physician through the full process. **We are a coordinator** — not the prescriber, not the dispensing pharmacy. All clinical decisions remain with your treating specialist.
