

Dupixent in UAE

The MoHAP named-patient coordination pathway — indicative 2026

IMMUNOLOGY · IL-4/IL-13

The clinical situation

Dupixent (dupilumab) is an FDA-approved fully human monoclonal antibody to IL-4R-alpha that blocks IL-4 and IL-13 signalling, indicated across multiple Type 2 inflammatory diseases: atopic dermatitis, asthma, CRSwNP, eosinophilic esophagitis, prurigo nodularis, and COPD with Type 2 inflammation. Manufactured by Regeneron/Sanofi. Typical dosing is 300 mg SC every two weeks after a loading dose (indication- and age-specific); refrigerated storage 2-8°C, patient-administered auto-injector or pre-filled syringe.

The pathway, 5 steps

- 1 Consultation & clinical rationale.** Your treating specialist (dermatologist, pulmonologist, allergist, gastroenterologist) documents diagnosis, severity, and prior-therapy response.
- 2 Treating centre confirmed.** A UAE tertiary centre in Abu Dhabi, Dubai, or Sharjah accepts the case.
- 3 MoHAP named-patient application.** Clinical rationale, patient reference, product details, and cold-chain plan are filed with the MoHAP NPP team; local emirate health authority coordination.
- 4 US-side sourcing & logistics.** Reserve Meds coordinates product through our US-licensed DSCSA-compliant specialty wholesale partner; temperature-monitored 2-8°C shipment.
- 5 Arrival & administration.** Patient self-administers SC at home after nurse training; clinical response reassessed at 12-16 weeks.

Indicative economics

Reference US cash-pay range: USD 3,500–4,200 per 2-week supply (one auto-injector / syringe). MoHAP documentation, cold-chain logistics, and concierge coordination are incremental. Full transparent quote at intake.

Indicative first-dose timing

7–14 days from a complete MoHAP application to first-dose delivery, once cohort intake opens. Indicative — not guaranteed.

Reserve Meds's role

Sourcing. US-licensed specialty wholesale partner, DSCSA chain-of-custody. **Documentation.** Regulatory package for your physician and MoHAP review. **Logistics.** Temperature-monitored cold-chain shipment coordination. **Concierge case lead.** Named point of contact for family and physician through the full process. **We are a coordinator** — not the prescriber, not the dispensing pharmacy. All clinical decisions remain with your treating specialist.
