

Gocovri in Kuwait

The Kuwait MOH named-patient coordination pathway — indicative 2026

NEUROLOGY · PARKINSON DYSKINESIA

The clinical situation

Gocovri (amantadine extended-release) is an FDA-approved oral ER amantadine indicated for the treatment of levodopa-induced dyskinesia in Parkinson disease patients, and as adjunctive therapy to levodopa for “off” episodes. Manufactured by Supernus (ADMA). Standard dosing initiates at 137 mg once at bedtime with titration after one week to 274 mg at bedtime; ambient-storage oral capsule with renal dose adjustment.

The pathway, 5 steps

- 1 Consultation & clinical rationale.** Your treating neurologist documents levodopa-induced dyskinesia or “off” episodes and confirms eligibility with renal function review.
- 2 Treating centre confirmed.** A Kuwaiti tertiary neurology clinic or movement-disorder referral centre in Kuwait City accepts the case.
- 3 Kuwait MOH named-patient application.** Clinical rationale, patient reference, and product details are filed with the Kuwait MOH drug & food control administration.
- 4 US-side sourcing & logistics.** Reserve Meds coordinates product through our US-licensed DSCSA-compliant specialty wholesale partner; ambient-temperature shipment.
- 5 Arrival & administration.** Patient begins bedtime dosing with physician-guided titration; dyskinesia / “off”-time diary reassessed at 4-8 weeks.

Indicative economics

Reference US cash-pay range: USD 3,200–3,800 per 30-day supply. Kuwait MOH documentation, logistics, and concierge coordination are incremental. Full transparent quote at intake.

Indicative first-dose timing

7–14 days from a complete Kuwait MOH application to first-dose delivery, once cohort intake opens. Indicative — not guaranteed.

Reserve Meds's role

Sourcing. US-licensed specialty wholesale partner, DSCSA chain-of-custody. **Documentation.** Regulatory package for your physician and Kuwait MOH review. **Logistics.** Ambient-temperature shipment coordination. **Concierge case lead.** Named point of contact for family and physician through the full process. **We are a coordinator** — not the prescriber, not the dispensing pharmacy. All clinical decisions remain with your treating physician.
