

# Joenja in Saudi Arabia

*The SFDA named-patient coordination pathway — indicative 2026*

RARE DISEASE · ACTIVATED PI3K-DELTA SYNDROME

## The clinical situation

Joenja (leniolisib) is an FDA-approved oral PI3K-delta inhibitor indicated for patients aged 12+ with activated PI3K-delta syndrome (APDS), a rare inborn error of immunity characterised by lymphoproliferation and humoral immune deficiency. Manufactured by Pharming. Dosed 70 mg twice daily. Tablets are stored ambient, with periodic monitoring of blood counts, liver enzymes, and infection surveillance required during treatment.

### The pathway, 5 steps

- 1 Consultation & genetic confirmation.** Treating immunologist confirms PIK3CD or PIK3R1 variant, APDS phenotype, baseline labs, and documents clinical rationale.
- 2 Treating centre & prescription confirmed.** A Saudi tertiary immunology centre (Riyadh or Jeddah) issues the prescription and commits to monitoring.
- 3 SFDA named-patient application.** Clinical rationale, genetic report, prescription, and product details are filed with SFDA for named-patient import clearance.
- 4 US-side sourcing & logistics.** Reserve Meds coordinates product through our US-licensed DSCSA-compliant specialty wholesale partner; ambient courier shipment booked.
- 5 Dispensing & monitoring.** Tablets delivered to the patient or treating centre; CBC, LFTs, and infection surveillance per label; refills coordinated on a 30-day cycle.

### Indicative economics

**Reference US cash-pay range:** USD 45,000–50,000 per 30-day supply drug-only. Ambient logistics, SFDA documentation, and concierge coordination are incremental. Full transparent quote at intake.

### Indicative first-fill timing

**7–14 days** from a complete SFDA application to first-fill delivery, once cohort intake opens. Indicative — not guaranteed.

## Reserve Meds's role

**Sourcing.** US-licensed specialty wholesale partner, DSCSA chain-of-custody. **Documentation.** SFDA named-patient package including genetic confirmation. **Logistics.** Ambient, tracked courier shipment coordination. **Concierge case lead.** Named point of contact for family and physician through the full process. **We are a coordinator** — not the prescriber, not the dispensing pharmacy. All clinical decisions remain with your treating immunologist.

**COMPOSITE EXAMPLE · PRE-LAUNCH WAITLIST**

**Join the Joenja × Saudi Arabia first-cohort waitlist.** *Our concierge reaches out as we open intake.*
