

Nuplazid in India

The CDSCO named-patient coordination pathway — indicative 2026

NEUROLOGY · PARKINSON DISEASE PSYCHOSIS

The clinical situation

Nuplazid (pimavanserin) is an FDA-approved oral selective 5-HT_{2A} inverse agonist indicated for hallucinations and delusions associated with Parkinson disease psychosis. Manufactured by Acadia Pharmaceuticals. Standard dosing is 34 mg once daily (one 34 mg capsule or two 17 mg tablets) without titration; ambient-storage oral capsule/tablet. It carries a class boxed warning for increased mortality in elderly patients with dementia-related psychosis.

The pathway, 5 steps

- 1 Consultation & clinical rationale.** Your treating neurologist or movement-disorder specialist confirms Parkinson disease psychosis diagnosis and documents prior therapy response.
- 2 Treating centre confirmed.** An Indian tertiary neurology/movement-disorder centre in Mumbai, Delhi, Bengaluru, or Chennai accepts the case.
- 3 CDSCO named-patient application.** Clinical rationale, patient reference, and product details are filed under CDSCO's personal-import pathway; Form-10/Form-12 as applicable.
- 4 US-side sourcing & logistics.** Reserve Meds coordinates product through our US-licensed DSCSA-compliant specialty wholesale partner; ambient-temperature shipment.
- 5 Arrival & administration.** Patient begins once-daily dosing under physician monitoring; reassessment at 4-6 weeks.

Indicative economics

Reference US cash-pay range: USD 3,200–3,800 per 30-day supply. CDSCO documentation, logistics, and concierge coordination are incremental. Full transparent quote at intake.

Indicative first-dose timing

7–14 days from a complete CDSCO application to first-dose delivery, once cohort intake opens. Indicative — not guaranteed.

Reserve Meds's role

Sourcing. US-licensed specialty wholesale partner, DSCSA chain-of-custody. **Documentation.** Regulatory package for your physician and CDSCO review. **Logistics.** Ambient-temperature shipment coordination. **Concierge case lead.** Named point of contact for family and physician through the full process. **We are a coordinator** — not the prescriber, not the dispensing pharmacy. All clinical decisions remain with your treating physician.
