

Onpattro in India

The CDSCO named-patient coordination pathway — indicative 2026

NEUROLOGY · HEREDITARY ATTR AMYLOIDOSIS

The clinical situation

Onpattro (patisiran) is an FDA-approved lipid-nanoparticle siRNA against TTR for hereditary transthyretin amyloidosis with polyneuropathy (hATTR-PN), dosed 0.3 mg/kg IV every three weeks. Manufactured by Alnylam. Refrigerated shipment, premedication (steroid / antihistamine / antipyretic), and vitamin A supplementation are required; infusion must occur in an equipped clinic.

The pathway, 5 steps

- 1 Consultation & genetic confirmation.** Treating neurologist confirms TTR variant and hATTR-PN phenotype; baseline neurologic assessment and vitamin A documented.
- 2 Infusion centre confirmed.** An Indian tertiary neurology centre (Delhi, Mumbai, Bengaluru, Chennai) commits to triweekly infusion slots with premedication capability.
- 3 CDSCO named-patient application.** Form 12A / personal-import documentation is filed with genetic report, dose calculation, and product details for CDSCO review.
- 4 US-side sourcing & cold-chain logistics.** Reserve Meds coordinates product through our US-licensed DSCSA-compliant specialty wholesale partner; refrigerated shipment booked to infusion schedule.
- 5 Infusion & monitoring.** Triweekly IV infusions under specialist supervision with premedication; vitamin A and neurologic monitoring per label.

Indicative economics

Reference US cash-pay range: USD 40,000–55,000 per infusion (weight-based) drug-only. Cold-chain logistics, CDSCO documentation, infusion-centre fees, and concierge coordination are incremental. Full transparent quote at intake.

Indicative first-infusion timing

7–14 days from a complete CDSCO application to first-infusion delivery, once cohort intake opens. Indicative — not guaranteed.

Reserve Meds's role

Sourcing. US-licensed specialty wholesale partner, DSCSA chain-of-custody. **Documentation.** CDSCO named-patient / Form 12A package with genetic confirmation. **Logistics.** Cold-chain, temperature-monitored shipment coordination. **Concierge case lead.** Named point of contact for family and physician through the full process. **We are a coordinator** — not the prescriber, not the dispensing pharmacy. All clinical decisions remain with your treating neurologist.
