

Ponvory in Saudi Arabia

The SFDA named-patient coordination pathway — indicative 2026

NEUROLOGY · RELAPSING MULTIPLE SCLEROSIS

The clinical situation

Ponvory (ponesimod) is an oral selective S1P1 receptor modulator FDA-approved for relapsing forms of multiple sclerosis. Manufactured by Janssen. A 14-day gradual titration pack is used at initiation, stepping from 2 mg up to the 20 mg maintenance dose to mitigate the class first-dose cardiac-conduction signal. Pre-treatment workup covers baseline ECG, cardiac review, CBC with absolute lymphocyte count, LFTs, varicella serology, and ophthalmologic baseline per FDA labelling.

The pathway, 5 steps

- 1 Consultation & clinical rationale.** Your neurologist documents MS subtype, MRI review, prior DMTs, and Ponvory rationale.
- 2 Baseline workup.** ECG, cardiac review, CBC with lymphocyte count, LFTs, varicella serology, ophthalmology baseline per FDA labelling.
- 3 SFDA named-patient application.** Physician or hospital pharmacy files clinical rationale, patient reference, titration plan, and chain-of-custody commitment.
- 4 US-side sourcing & logistics.** Reserve Meds coordinates product through our US-licensed DSCSA-compliant specialty wholesale partner with controlled-ambient shipment.
- 5 Arrival & first dose.** Dispensing pharmacy releases the 14-day starter pack; first-dose cardiac monitoring arranged per protocol.

Indicative economics

Reference US cash-pay range: USD 90,000–105,000 per year of Ponvory (drug-only reference; Reserve Meds provides a transparent delivered quote at intake).

Indicative first-dose timing

7–14 days from a complete SFDA application to first dispensation, once cohort intake opens. Indicative — not guaranteed.

Reserve Meds's role

Sourcing. US-licensed specialty wholesale partner, DSCSA chain-of-custody from Janssen authorised distribution.

Documentation. Physician kit tailored to SFDA review, with selective S1P1 class safety annex. **Logistics.** Controlled-ambient internationally tracked shipment. **Concierge case lead.** Named point of contact for family and physician through titration and monthly refills. **We are a coordinator** — not the prescriber, not the dispensing pharmacy. All clinical decisions remain with your treating physician.
