

# Taltz in Kuwait

*The Kuwait MOH named-patient coordination pathway — indicative 2026*

IMMUNOLOGY · IL-17A

## The clinical situation

Taltz (ixekizumab) is an FDA-approved humanised monoclonal antibody to IL-17A indicated for moderate-to-severe plaque psoriasis, psoriatic arthritis, ankylosing spondylitis, and non-radiographic axial spondyloarthritis. Manufactured by Lilly. Standard dosing is 160 mg SC induction at week 0 then 80 mg at weeks 2/4/6/8/10/12 and 80 mg every 4 weeks thereafter (indication-specific); refrigerated storage 2-8°C, auto-injector or pre-filled syringe.

### The pathway, 5 steps

- 1 Consultation & clinical rationale.** Your treating dermatologist or rheumatologist documents diagnosis severity, TB/HBV/HCV screening, IBD status, and prior biologic history.
- 2 Treating centre confirmed.** A Kuwaiti tertiary dermatology or rheumatology centre in Kuwait City accepts the case.
- 3 Kuwait MOH named-patient application.** Clinical rationale, patient reference, product details, and cold-chain plan are filed with the Kuwait MOH drug & food control administration.
- 4 US-side sourcing & logistics.** Reserve Meds coordinates product through our US-licensed DSCSA-compliant specialty wholesale partner; temperature-monitored 2-8°C shipment.
- 5 Arrival & administration.** Patient self-administers SC at home after nurse training; response reassessed at 12-16 weeks.

### Indicative economics

**Reference US cash-pay range:** USD 6,500–7,500 per monthly dose. Kuwait MOH documentation, cold-chain logistics, and concierge coordination are incremental. Full transparent quote at intake.

### Indicative first-dose timing

**7–14 days** from a complete Kuwait MOH application to first-dose delivery, once cohort intake opens. Indicative — not guaranteed.

## Reserve Meds's role

**Sourcing.** US-licensed specialty wholesale partner, DSCSA chain-of-custody. **Documentation.** Regulatory package for your physician and Kuwait MOH review. **Logistics.** Temperature-monitored cold-chain shipment coordination. **Concierge case lead.** Named point of contact for family and physician through the full process. **We are a coordinator** — not the prescriber, not the dispensing pharmacy. All clinical decisions remain with your treating specialist.

**COMPOSITE EXAMPLE · PRE-LAUNCH WAITLIST**

**Join the Taltz × Kuwait first-cohort waitlist.** *Our concierge reaches out as we open intake.*
