

Tascenso ODT in the UAE

The MoHAP named-patient coordination pathway — indicative 2026

NEUROLOGY · PAEDIATRIC RELAPSING MULTIPLE SCLEROSIS

The clinical situation

Tascenso ODT (fingolimod orally disintegrating tablets) is an S1P receptor modulator FDA-approved for relapsing forms of multiple sclerosis in adults and paediatric patients aged 10 years and older. Manufactured by Handa Pharmaceuticals. The ODT formulation is designed for younger patients and those with swallowing difficulties, providing weight-based dosing (0.25 mg or 0.5 mg once daily). Pre-treatment workup covers baseline ECG with six-hour first-dose cardiac monitoring, CBC with absolute lymphocyte count, LFTs, varicella serology, and ophthalmologic baseline per FDA labelling.

The pathway, 5 steps

- 1 Consultation & clinical rationale.** Your paediatric neurologist documents MS subtype, MRI review, weight-based dose, and Tascenso ODT rationale.
- 2 Baseline workup.** ECG, CBC with lymphocyte count, LFTs, varicella serology, ophthalmology baseline; first-dose cardiac monitoring plan per FDA labelling.
- 3 MoHAP named-patient application.** Physician or hospital pharmacy files clinical rationale, patient reference, weight-based dose, and chain-of-custody commitment.
- 4 US-side sourcing & logistics.** Reserve Meds coordinates product through our US-licensed DSCSA-compliant specialty wholesale partner with controlled-ambient shipment.
- 5 Arrival & first dose.** Dispensing pharmacy releases monthly supply; six-hour first-dose cardiac monitoring arranged per protocol.

Indicative economics

Reference US cash-pay range: USD 95,000–110,000 per year of Tascenso ODT (drug-only reference; Reserve Meds provides a transparent delivered quote at intake).

Indicative first-dose timing

7–14 days from a complete MoHAP application to first dispensation, once cohort intake opens. Indicative — not guaranteed.

Reserve Meds's role

Sourcing. US-licensed specialty wholesale partner, DSCSA chain-of-custody from Handa authorised distribution.

Documentation. Physician kit tailored to MoHAP review, with paediatric-dosing and first-dose cardiac monitoring annex.

Logistics. Controlled-ambient internationally tracked shipment. **Concierge case lead.** Named point of contact for family and physician through initiation and monthly refills. **We are a coordinator** — not the prescriber, not the dispensing pharmacy. All clinical decisions remain with your treating physician.
