

Tecvayli in India

The CDSCO named-patient coordination pathway — indicative 2026

ONCOLOGY · RELAPSED/REFRACTORY MULTIPLE MYELOMA

The clinical situation

Tecvayli (teclistamab-cqyv) is an FDA-approved BCMA×CD3 bispecific antibody from Janssen for relapsed/refractory multiple myeloma after multiple prior lines. Administered subcutaneously on a step-up schedule — priming doses followed by weekly target dosing — to reduce cytokine release syndrome risk. Step-up is typically inpatient; subsequent doses transition to outpatient. As an off-the-shelf immunotherapy it is an alternative where CAR-T infrastructure or timing is not feasible.

The pathway, 5 steps

- 1 Consultation & clinical rationale.** Your treating haematologist confirms relapsed/refractory myeloma, line history, and fitness for bispecific therapy.
- 2 Haematology unit confirmed.** An Indian tertiary centre (Mumbai, Delhi, Bangalore, Chennai, Hyderabad, Kolkata) with CRS/neurotoxicity monitoring capability accepts the step-up admission.
- 3 CDSCO named-patient application.** Clinical rationale, line history, patient identification, product details, and CRS/neurotoxicity surveillance plan are filed.
- 4 US-side sourcing & logistics.** Reserve Meds coordinates product through our US-licensed DSCSA-compliant specialty wholesale partner; cold-chain shipment with continuous temperature monitoring.
- 5 Arrival, step-up & weekly dosing.** The hospital pharmacy receives product and releases doses for the step-up admission and subsequent weekly injections.

Indicative economics

Reference US cash-pay range: USD 39,000–48,000 per 4-week maintenance supply; drug-only reference. Reserve Meds provides a transparent delivered quote at intake.

Indicative first-dose timing

7–14 days from a complete CDSCO application to first step-up dose, once cohort intake opens. Indicative — not guaranteed.

Reserve Meds's role

Sourcing. US-licensed specialty wholesale partner, DSCSA chain-of-custody. **Documentation.** Regulatory package for your physician and CDSCO review. **Logistics.** Cold-chain, temperature-monitored shipment coordination. **Concierge case lead.** Named point of contact for family and physician through intake, step-up, and weekly maintenance. **We are a coordinator** — not the prescriber, not the dispensing pharmacy. All clinical decisions remain with your treating haematologist.
