

Ubrelvy in the UAE

The MoHAP named-patient coordination pathway — indicative 2026

NEUROLOGY · ACUTE MIGRAINE

The clinical situation

Ubrelvy (ubrogepant) is an FDA-approved oral CGRP receptor antagonist indicated for the acute treatment of migraine with or without aura in adults, manufactured by AbbVie. Dosing is 50 mg or 100 mg at attack onset, with an optional second dose at least two hours later (max 200 mg in 24 hours). As a gepant, Ubrelvy offers a non-vasoconstrictor alternative to triptans — especially useful for patients with cardiovascular disease, uncontrolled hypertension, or prior adverse triptan experience. It does not replace preventive therapy; that is a separate clinical decision by the treating neurologist.

The pathway, 5 steps

- 1 Consultation & clinical rationale.** Migraine diagnosis per ICHD-3, prior triptan trials or triptan contraindications, and the gepant rationale documented.
- 2 MoHAP named-patient application.** Physician files clinical letter, patient identifier, and product details (DoH/DHA as applicable).
- 3 US-side sourcing & logistics.** Reserve Meds coordinates product through our US-licensed DSCSA-compliant specialty wholesale partner.
- 4 Shipment.** Ubrelvy ships at controlled room temperature; no cold-chain is required.
- 5 Arrival & dispensing.** The receiving facility dispenses per your neurologist's direction; refills ship on a rolling basis.

Indicative economics

Reference US cash-pay range: USD 900–1,000 per 10-tablet carton (drug-only reference; Reserve Meds provides a transparent delivered quote at intake).

Indicative first-dose timing

7–14 days from a complete MoHAP application to first dispensation, once cohort intake opens. Indicative — not guaranteed.

Reserve Meds's role

Sourcing. US-licensed specialty wholesale partner, DSCSA chain-of-custody. **Documentation.** Regulatory package for your physician and MoHAP (or DoH/DHA) review, keyed to the acute-migraine rationale. **Logistics.** Room-temperature shipment coordination. **Concierge case lead.** Named point of contact managing ongoing refill logistics. **We are a coordinator** — not the prescriber, not the dispensing pharmacy. All clinical decisions remain with your treating neurologist.
