

# Vpriv in India

*The CDSCO named-patient coordination pathway — indicative 2026*

RARE DISEASE · GAUCHER TYPE 1

## The clinical situation

Vpriv (velaglucerase alfa) is an FDA-approved recombinant glucocerebrosidase enzyme replacement therapy indicated for Type 1 Gaucher disease, dosed 60 U/kg IV every two weeks. Manufactured by Takeda. Weight-based dosing, cold-chain shipment to an infusion centre, and periodic haematologic and visceral-volume monitoring are required. Infusion reactions are managed with premedication and infusion-rate adjustment.

### The pathway, 5 steps

- 1 Consultation & diagnostic confirmation.** Treating metabolic / haematology specialist confirms GBA enzyme deficiency and Type 1 phenotype; weight-based dose calculated.
- 2 Infusion centre confirmed.** An Indian tertiary centre (Delhi, Mumbai, Bengaluru, Chennai) commits to biweekly infusion slots and haematologic monitoring.
- 3 CDSCO named-patient application.** Form 12A / personal-import documentation is filed with diagnosis, dose calculation, and product details for CDSCO review.
- 4 US-side sourcing & cold-chain logistics.** Reserve Meds coordinates product through our US-licensed DSCSA-compliant specialty wholesale partner; refrigerated shipment booked to infusion schedule.
- 5 Infusion & monitoring.** Biweekly IV infusions under specialist supervision; haematologic and visceral-volume monitoring per label; refills coordinated on a rolling cycle.

### Indicative economics

**Reference US cash-pay range:** USD 15,000–22,000 per infusion (weight-based) drug-only. Cold-chain logistics, CDSCO documentation, infusion-centre fees, and concierge coordination are incremental. Full transparent quote at intake.

### Indicative first-infusion timing

**7–14 days** from a complete CDSCO application to first-infusion delivery, once cohort intake opens. Indicative — not guaranteed.

## Reserve Meds's role

**Sourcing.** US-licensed specialty wholesale partner, DSCSA chain-of-custody. **Documentation.** CDSCO named-patient / Form 12A package with enzyme-assay confirmation. **Logistics.** Cold-chain, temperature-monitored shipment coordination.

**Concierge case lead.** Named point of contact for family and physician through the full process. **We are a coordinator** — not the prescriber, not the dispensing pharmacy. All clinical decisions remain with your treating specialist.

**COMPOSITE EXAMPLE · PRE-LAUNCH WAITLIST**

**Join the Vpriv × India first-cohort waitlist.** *Our concierge reaches out as we open intake.*
