

# Vumerity in Jordan

The JFDA named-patient coordination pathway — indicative 2026

NEUROLOGY · RELAPSING MULTIPLE SCLEROSIS

## The clinical situation

Vumerity (diroximel fumarate) is an FDA-approved oral fumarate prodrug of monomethyl fumarate indicated for the treatment of relapsing forms of multiple sclerosis (CIS, RRMS, active SPMS). Manufactured by Biogen. Standard dosing is 231 mg twice daily for one week then 462 mg twice daily thereafter; ambient-storage oral delayed-release capsule with CBC/LFT monitoring and PML vigilance.

### The pathway, 5 steps

- 1 Consultation & clinical rationale.** Your treating neurologist confirms diagnosis with MRI and documents DMT history and JCV serostatus.
- 2 Treating centre confirmed.** A Jordanian tertiary neurology / MS centre in Amman accepts the case.
- 3 JFDA named-patient application.** Clinical rationale, patient reference, and product details are filed with the JFDA unregistered drug committee.
- 4 US-side sourcing & logistics.** Reserve Meds coordinates product through our US-licensed DSCSA-compliant specialty wholesale partner; ambient-temperature shipment.
- 5 Arrival & administration.** Patient begins twice-daily dosing with physician-guided titration; CBC, LFTs, and MRI per standard MS monitoring cadence.

### Indicative economics

**Reference US cash-pay range:** USD 7,500–9,000 per 30-day supply. JFDA documentation, logistics, and concierge coordination are incremental. Full transparent quote at intake.

### Indicative first-dose timing

**7–14 days** from a complete JFDA application to first-dose delivery, once cohort intake opens. Indicative — not guaranteed.

## Reserve Meds's role

**Sourcing.** US-licensed specialty wholesale partner, DSCSA chain-of-custody. **Documentation.** Regulatory package for your physician and JFDA review. **Logistics.** Ambient-temperature shipment coordination. **Concierge case lead.** Named point of contact for family and physician through the full process. **We are a coordinator** — not the prescriber, not the dispensing pharmacy. All clinical decisions remain with your treating neurologist.
